|  Hot surfaces |  Wash & dry hands after performing task    |
|                                                                                               |  Inspect equipment - Do not use if damaged |

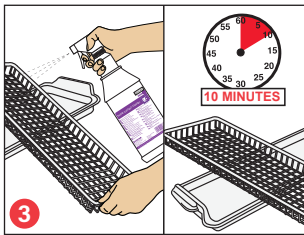

- **PRESS** button on menu to start cleaning.
- Tap **YES** to confirm cleaning.

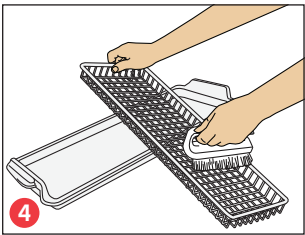

- **REMOVE** all trays.
- **PRESS** confirmation button when all trays have been removed.
- **TAKE** trays and racks to 3-compartment sink or warewash machine.  
**NOTE:** If using a dishwasher, skip steps 2-4.

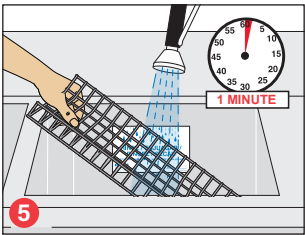

- Place in **WASH** compartment of 3-compartment sink filled with fresh **hot** (43–49°C) APSC Solution.

- For heavy soil buildup, spray with Super Contact Cleaner; allow to soak for 10 minutes.

- Use small wares cleaning brush to remove all soil buildup from wire racks; use a NO-SCRATCH Pad to scrub trays.

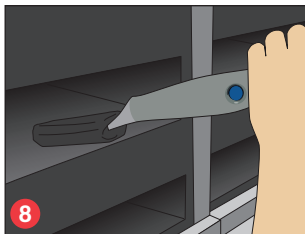

- Rinse and sanitize all items; sanitize in SolidSense Sanitizer Solution for one minute; allow to air dry.  
**NOTE:** Rotate items to allow cleaning and sanitizing of all surfaces.

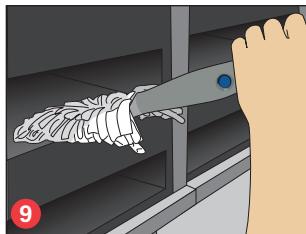

- Let cabinet cool until **COOLDOWN SCREEN** is displayed (when temperature reaches 49°C).
- **READY SCREEN** will appear to indicate it is safe to begin cleaning.

- Fill a clean bucket with **hot** (43–49°C) APSC Solution
- Dip Hi-Temp Multi-Use Tool into APSC Solution; shake excess Solution off pad into bucket.  
**NOTE:** Failure to shake out all excess Solution from pad can result in permanent damage to UHC electrical components.

- Scrub inside of each UHC cabinet shelf with Hi-Temp Multi-Use Tool with Pad.
- Repeat for all UHC shelves.

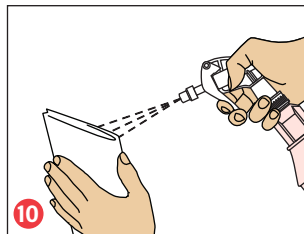

- Remove black Multi-Use pad.
- Retrieve white Universal Pad from clean cloth bucket and wring it out thoroughly.
- Slide white Universal Pad onto tool.
- Use white Universal Pad to wipe out and rinse UHC shelves; repeat for all shelves.

**NOTE:** Make sure to wring out white Universal Pad before using in UHC shelves.

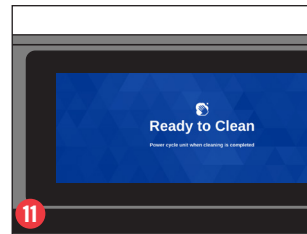

- Spray a clean sanitizer-soaked cloth with Sanitizer Solution; wipe exterior of Cap Touch Accessory
- Discard cloth into soiled cloth bucket after use

**NOTE:** If Cap Touch panel is present, refer to step 12 for cleaning.

- Spray a clean sanitizer-soaked cloth with Sanitizer Solution; wipe exterior of cabinet.
- Discard cloth into soiled cloth bucket after use.

- **POWER CYCLE** the system when complete.
- **WASH, RINSE AND SANITIZE** cleaning tools at 3-compartment sink.
