Equipment

SolidSense All Purpose
Super Concentrate (APSC)
SolidSense Sink Sanitizer

SolidSense
FloorCare Sanitizer

KAY®
Liquid Cleanser

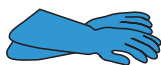

KAY® DeLimer

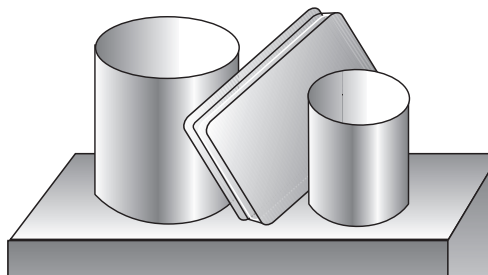

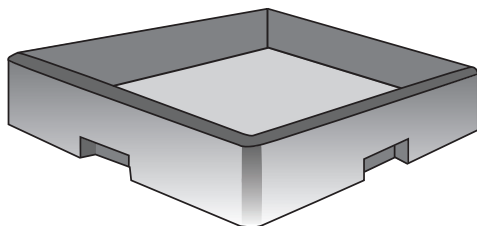

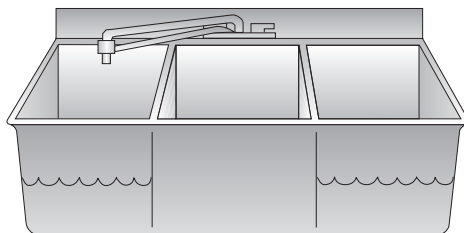

Dive Brush

Red Dry Mop

Cleaning Gloves
available

Every 4 hours

1

Scrub sink area with APSC (or Liquid Cleanser if scaled) and rinse.

2

Scrub and sanitise trays used for draining.

3

Use KAY® DeLimer for heavy scaling (1 packet to 1L of hot water)

4

Dispense SolidSense APSC into first sink, level should be sufficient to clean equipment (Roughly half full). Dispense SolidSense Sanitizer into third sink, sufficient to sanitize equipment (Roughly half full).

5

If sink levels fall, sink lever may need repair or replacement.

6

Scrape food soil into bin. Spray off excess soil and grease.

7

Spray off excess soil and grease over middle sink.

8

Clean items in an order of 'dirtiness' with the greasiest items being left till last.

9

Place items in fresh APSC solution. Soak heavily soiled items for 5 mins. Solution should be 40°C – 45°C.

10

Step 1

SCRUB clean with dive brush.

11

Change water in both sinks when heavily soiled or greasy.

12

Step 2

Rinse with hot water spray.

13

Water should be above 50°C.

14

Step 3

Sanitise by soaking in SolidSense Sanitizer.

15

Step 4

AIR-DRY by placing in self-draining position on a clean sanitised surface.

16

Clean kitchen roll can be used to dry equipment that is needed for immediate use.

Store kitchen roll in a clean, dry, hygienic place.

Place pots upside down, trays on edge.

17

Store clean and sanitised items on clean shelf or tray.

18

Place items at least 15 cm above floor NOT ON FLOOR – an upturned sanitised bun tray can be used.

Move trays of clean items to a clean area to provide space.

19

Wash and sanitise sinks, backsplash, drainers and taps.

20

Keep floors near sink dry. Mop up spills immediately.
