Tips

Look for this icon to find helpful tips about how to do a procedure

Why	To maintain food safety standards and to keep the egg cooker/egg steamer clean	
Time required	2 minute to prepare	10 minutes to complete
Time of day	After close	For 24-hour restaurants: during low volume periods when regular menu is being served

Hazard icons  Chemicals  Hot Surfaces

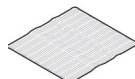

Tools and supplies

Bucket, soiled towels

Bucket, clean and sanitized towels

Grill cloth

McD All-Purpose Super Concentrate (APSC)

Procedure

1. Turn unit off.

Turn the power switch off. Unplug the power cord. Allow the unit to cool down completely.

Hot Surfaces

The unit will be hot.

2. Remove top cover, egg rings, and scrap pans.

Remove the top cover, egg rings, and scrap pans from the unit. Take them to the three-compartment sink.

3. Wash, rinse, and sanitize top cover, egg rings, and scrap pans.

Wash, rinse, and sanitize the top cover, egg rings, and scrap pans. Allow to air dry. Reinstall parts when complete.

Chemicals

McD All-Purpose Super Concentrate (APSC)
Sanitizer solution

4. Clean grill surface

Spray a clean, sanitizer soaked towel with McD All-Purpose Super Concentrate (APSC). Wipe the entire grill surface until it is clean. Use a separate clean, sanitizer-soaked towel to rinse the grill surface to remove all traces of APSC.

If a scraper is needed during cleaning, use a plastic scraper. This is the preferred method. If you are using a metal scraper, wrap the scraper in a clean grill cloth first.

Chemicals

McD All-Purpose Super Concentrate (APSC)

Equipment Alert

Do NOT pour water onto the grill surface or use a metal tool to scrape the grill surface.

5. Wipe outside of unit

Wipe down the exterior of the unit with a separate clean, sanitizer-soaked towel.

Chemicals

Sanitizer Solution

6. Return unit to use.

Plug in the power cord. Turn the power switch on. Return the unit to use.
