Equipment and Cleaning chemicals

Important Information - before you start :

Always set the ABS into MANUAL mode before performing any actions.
Handle the conveyor assembly and all other ABS components with extra care.
When removing for daily cleaning : Avoid bumping into the drip tray or touching the sensors.
Placing the conveyor aside, always put it onto a flat a large enough surface.
None of the ABS components are dishwasher proof.

- 1 Press the 'Manual / Auto' button to place the unit in Manual Mode.

- 2 Prior to start, assure that the conveyor assembly and grille are removed. Perform the daily cleaning procedures.

- 3 Remove the panel / lid holder and set it aside. No tools are needed. Simply push up and unhook the panel and slide it forward.

- 4 The Ice gate disable switch is located to the left of the ice chute. Turn the switch to the OFF position.

5

Push the ice gate to the left to allow chute removal. Do not remove the ice gate, simply open it.

6

Pull and hold the locking pin with one hand while rotating the ice chute clockwise.

7

While pulling and holding the locking pin with one hand, rotate the ice chute clockwise, then pull the ice chute down to remove.

8

Clean and sanitize the Ice Chute at the three-compartment-sink using 4-steps cleaning method and the nylon bristled brush.

9

While pulling and holding the locking pin with one hand, slide the ice chute into place and rotate the ice chute counter-clockwise.

10

The Ice gate disable switch is located to the left of the ice chute. Turn the switch to the ON position.

11

Reinstall the lid holder and front panel.

12

Refill the ice chute by pressing the button labelled "EXTRA ICE".

13

Check the display if any orders are pending. To empty the buffer, press the UP arrow to cancel orders, and press the ENTER button to confirm. Press the AUTO button.
