Setting up the BIO-SHIELD Dispenser

1

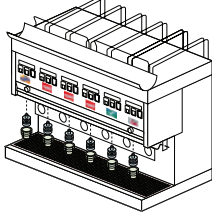

Ensure hands are dry before handling product.

2

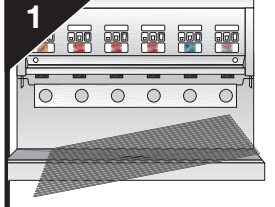

Fill BIO-SHIELD® bottle with 3.8L of hot water and add 1 soluble pack of BIOSHIELD Beverage Tower Drain Cleaner, DO NOT OPEN PACK. Immediately close the lid and shake, the Bio-Shield film will dissolve in the hot water.

Drinks Towers

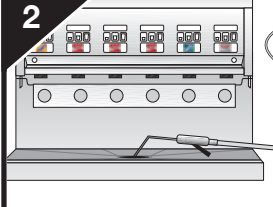

1

Remove drain grate and take to back sink for 4-step cleaning.

2

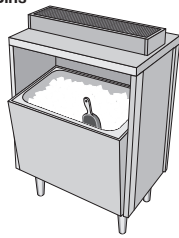

Apply BIO-SHIELD Beverage Tower Drain Cleaner directly into the drain.

3

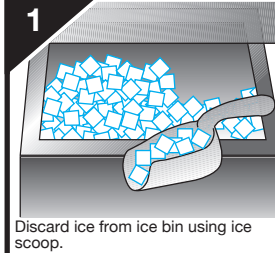

Do not rinse / flush away Bio-Shield. Leave to work for as long as possible (ideally overnight) and at least 2 hours. If drain problems occur use daily for a week and then weekly after.

Ice Bins

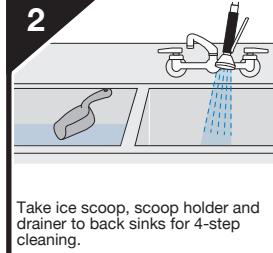

1

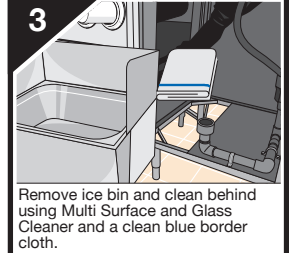

Discard ice from ice bin using ice scoop.

2

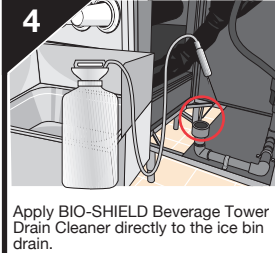

Take ice scoop, scoop holder and drainer to back sinks for 4-step cleaning.

3

Remove ice bin and clean behind using Multi Surface and Glass Cleaner and a clean blue border cloth.

4

Apply BIO-SHIELD Beverage Tower Drain Cleaner directly to the ice bin drain.

5

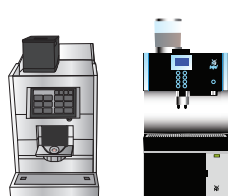

Use the Dry Mop to go over the area until the floor is completely dry.

6

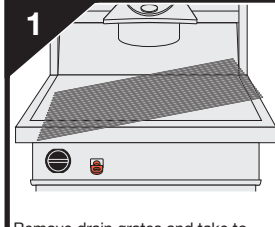

Do not rinse / flush away Bio-Shield. Leave to work for as long as possible (ideally overnight) and at least 2 hours. If drain problems occur use daily for a week and then weekly after.

Coffee Machines

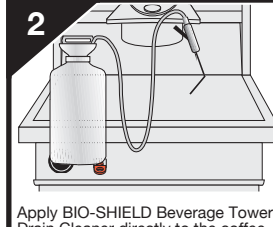

1

Remove drain grates and take to back sinks for 4-step cleaning.

2

Apply BIO-SHIELD Beverage Tower Drain Cleaner directly to the coffee machine drain.

3

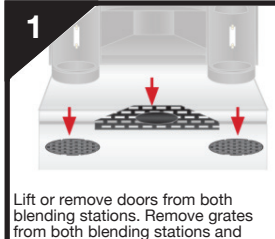

Do not rinse / flush away Bio-Shield. Leave to work for as long as possible (ideally overnight) and at least 2 hours. If drain problems occur use daily for a week and then weekly after.

Blended Ice Machine

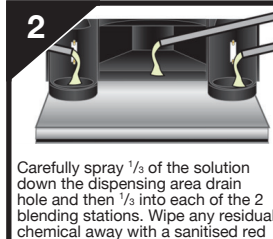

1

Lift or remove doors from both blending stations. Remove grates from both blending stations and central dispensing area

2

Carefully spray $\frac{1}{3}$ of the solution down the dispensing area drain hole and then $\frac{1}{3}$ into each of the 2 blending stations. Wipe any residual chemical away with a sanitised red border cloth.

3

Wipe drain areas with a sanitised red border cloth. Replace grates in both blending stations and central dispensing area. Replace or close doors on both blending stations.

4

Do not rinse / flush away Bio-Shield. Leave to work for as long as possible (ideally overnight) and at least 2 hours. If drain problems occur use daily for a week and then weekly after.
